Claim Amendments:

Kindly amend the claims in accordance with the following claim set:

1. (Currently Amended): A wiper sheet packaging system comprising: a containment envelope of pliable material including a mouth opening, a first plurality of stacked, folded wiper sheets defining a first column of wiper sheets, wherein folded edges of said first plurality of stacked, folded wiper sheets defines a folded lateral boundary of said first column and at least a second plurality of stacked, folded wiper sheets defining a second column of wiper sheets, wherein folded edges of said second plurality of stacked, folded wiper sheets defines a folded lateral boundary of said second column, and wherein the folded lateral boundary of the first column is disposed in opposing relation to the folded lateral boundary of the second column without a barrier between the first column and the second column such that during use the folded lateral boundary of said first column is unobstructed from contacting the folded lateral boundary of the second column and wherein the folded lateral boundary of the first column and the folded lateral boundary of the second column are disposed substantially transverse to said mouth opening.

LYB 2. (Original): The invention as recited in claim <sup>1</sup>/~~2~~, further comprising a displaceable cover element disposed in sealing relation across the mouth opening, and wherein the cover element is adapted to be resealable across the mouth opening following removal.

3. (Original) The invention as recited in claim 1, wherein at least a portion of said first plurality of stacked folded wiper sheets is presaturated with a cleaning agent.
